

*Alaska Natural Pet Food,
inspired by nature!*

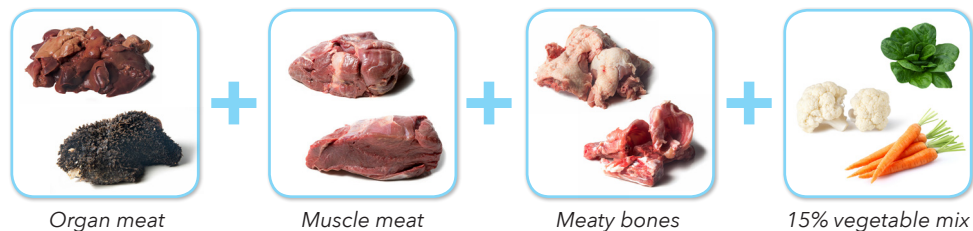

ALASKA NATURAL PET FOOD

The meat mixtures from Alaska Natural Pet Food are inspired by nature itself, the diet of the ancestors of dogs and cats. Alaska Natural Pet Food is prepared from the best fresh ingredients that are available: raw meat with bones and organs, for dogs it's complemented with minced vegetables. After production Alaska Natural Pet Food is blast frozen so all naturally present vitamins are retained.

THE PERFECT COMPOSITION FOR DOGS

Alaska Natural dogfood has 11 different meaty preparations suitable for dogs in its range. Their compositions are based on the BARF method (Biologically Appropriate Raw Food). The sausages contain:

There are 8 meaty preparations consisting of only one animal species. These variants only contain raw meat, organs and bones from this one animal species. Single variants available are:

- Alaska Dog Beef
- Alaska Dog Chicken
- Alaska Dog Duck
- Alaska Dog Rabbit
- Alaska Dog Pheasant
- Alaska Dog Salmon
- Alaska Dog Horse
- Alaska Dog Lamb

There are also three special variants, all with an exclusive composition for dogs with special requirements.

- **Alaska Dog Puppy**

A mix with 6 animal species to let a puppy get used to differing flavours at a young age. The product only contains soft bones which are therefore easily digestible.

Composition: Chicken backs, salmon, lamb heart, horse meat, beef heart, chicken liver and a 10% vegetable mix.

- **Alaska Dog Hi-Energy**

A mix of high-calorie ingredients for dogs with high energy requirements.

Composition: Chicken backs, rabbit kidneys with fat, beef tripe, sheep fat and a mixture of vegetables.

- **Alaska Dog Skin & Coat**

A mix of different fat-and oil-rich raw materials. A delicious variant with extra sheep fat for a healthy skin and coat.

Composition: Mackerel, duck necks, horse meat, sheep fat, rabbit ears and heart and a mix of vegetables.

ALASKA NATURAL CAT FOOD

This is an Alaska line of products developed especially for cats. These variants do not contain vegetables as this has no added value for cats. The cat products contain:

- 100% animal products
- A combination of raw meat, organs and bones
- Soft, easy digestible bones

There are three variants with a single animal species, which are:

- Alaska Cat Chicken
- Alaska Cat Rabbit
- Alaska Cat Turkey

And two variants with mixed animal species, which are:

- Alaska Cat Beef/Chicken
- Alaska Cat Lamb/Fish

COMBI BOXES

- **Combi Dog 800**

This box contains 10 meaty preparations of 800 gram. The variants in this box are: 2 x Beef, 2 x Salmon, 2 x Chicken, 2 x Duck, 2 x Lamb.

- **Combi Dog 400**

This box contains 12 meaty preparations of 400 gram. The variants in this box are: 3 x Chicken, 3 x Salmon, 2 x Beef, 2 x Duck, 2 x Lamb.

- **Combi Cat 250**

This box contains 22 meaty preparations of 250 gram.

The variants in the box are: 5 x Chicken, 5 x Turkey, 4 x Rabbit, 4 x Lamb & Fish, 4 x Beef & Chicken

FEEDING GUIDE

We advise to vary with different meats to form a balanced diet. When at least four different Alaska meats are fed during two weeks and once a week a fish meat is fed, it can then be assumed that a balanced diet is achieved. The Alaska meaty preparations are also available in a handy combi box, containing different meats which make it easy to achieve a balanced diet.
